

Biotech/Pharma/Medical Devices Directory of Search Firms and Recruiters: Job Hunting? Get Your Resume in the Right Hands

This directory was published October 2014 and its data were drawn from our October 2014 database. Job hunters need to do many things to get a job - - call all their friends and relatives, answer ads, and send out hundreds, even thousands of letters and resumes in a targeted direct email, direct fax or direct snail mail campaign. Our online databases and directories are designed to help you in that last task - to get your personal cover letter and resume to the executive search firms that specialize in your field. Executive search firms work to fill management positions at top companies across the U.S. and abroad. It is estimated that almost two-thirds of executive positions are filled by executive search firms. Personnel agencies work to fill professional, technical, and administrative personnel at companies. The search firms and agencies in our database are hired and paid by companies that need new employees. The Biotech/Pharma/Medical Devices Directory of Search Firms and Recruiters is drawn from our October 2014 database of more than 15,900 search firms and personnel agencies and 26,000+ key contacts. We chose US and Canadian recruiters who specialize in the biotech, pharmaceuticals or medical devices industries plus major search firms who work with all industry and position specialties. The companies are arranged alphabetically by name with multiple offices of the same firm listed alphabetically by city. Our Directories contain full contact information and descriptions for each Search Firm in its category.
