Whether you are new or a seasoned craft show veteran, you will find several tips inside that will make your show easier, more profitable, and less stressful. These tips have been gathered from over 17 years of selling at craft shows, and learning what works and what doesnt work. When my wife and I started doing craft shows back in the early 1990s there was not very much information on what to do, how to setup your booth, how to attract customers, how much inventory you need, or where to obtain the items we needed to succeed. This eBook will supply you with 75 tips to help make your shows better and possibly more profitable. Thats what we are all looking to do anyway, is make a profit. **Book 2 Craft Shows Choosing The Right Show and Creating Your Display And Booth** In this E Book I explain how to choose the right craft show for your particular product. I also go in-depth about the proper way to display your work to attract more customers. There is another section on how to create a great booth, one that suits your and your customers needs. This book is designed for the new craft show vendor, but veterans can also learn from it also.
