

Dying in the Law of Moses: Crypto-Jewish Martyrdom in the Iberian World (The Modern Jewish Experience)

Miriam Bodians study of crypto-Jewish martyrdom in Iberian lands depicts a new type of martyr that emerged in the late 16th century—a defiant, educated judaizing martyr who engaged in disputes with inquisitors. By examining closely the Inquisition dossiers of four men who were tried in the Iberian peninsula or Spanish America and who developed judaizing theologies that drew from currents of Reformation thinking that emphasized the authority of Scripture and the religious autonomy of individual interpreters of Scripture, Miriam Bodian reveals unexpected connections between Reformation thought and historic crypto-Judaism. The complex personalities of the martyrs, acting in response to psychic and situational pressures, emerge vividly from this absorbing book.
