

An analysis of the Implementation of Audit Recommendations

Despite the annual audits performed by the Ministry of Education, Sport and Cultures internal auditors over the years, there appeared to be problems in government schools. In some instances there were inconsistencies involving procedural enrollment of students, misappropriation of funds and abuse of the organisations assets. This often led to inconveniences to the community, and the students who ended up paying more for sub standard services -Telegraph (2007) It is against this background that a study into the analysis of the implementation of audit recommendations was done. The researcher has been concerned with mismanagement of public funds by different ministries and has observed unending trends of administrative blunders made especially by the school authorities .
