

# The T and G Story: A History of the Transport and General Workers Union, 1922-2007

The Transport and General Workers Union was the biggest trade union in Britain for much of the 20th century, with its membership in the late 1970s reaching more than two million. It organised workers across the whole economy - from the docks to the car factories, from light engineering to aviation - and its activities touched the lives of many.
