

HUMANS ARE ALIENS

We think we rule planet Earth. We believe we have a God given right to. We imprison animals and slaughter them. Yet we would be horrified if another species enslaved and slaughtered us. Of course we would fight them - these aliens. But what if (just like the incarcerated animals) we were powerless to fight. What if these aliens had always held us prisoner on a planet we thought was ours? What if the Earth does not belong to humans at all? What if we are the aliens? Why do our Governments deny the existence of the UFOs we see in our skies daily? With their extremely advanced technology EBEs could take our planet Earth at any time. So why do E.T.s not invade? Is it conceivable they may actually ALREADY own planet Earth? If they were friendly imagine the free energy and intergalactic travel they have to offer. Yet we still live in the stone age compared to E.B.E.s. Are we being duped by our rulers? They will not hand over the reins of power easily. The conclusions drawn in this book are my own. I hope to shed light on the truth about our cousins from the stars. One thing is certain. Aliens have always been among us, in fact we ourselves ARE the aliens. The different races and beliefs of those who populate the Earth prove that planet Earth has been visited many times in the past. In fact the real enemies are the corrupt Governments who wish to enslave us all.
