## Vintage Collage Journals: Journaling with Antique Ephemera

Vintage Collage Journals is the sequel to Maryjo Kochs Vintage Collage-Works, her first book illustrating her unique style of collage art with antique ephemera. In her new book, Koch has compiled an inspiring portfolio of her many themed journals combining collage techniques with watercolor painting and other artists techniques. She explores the collage medium in travel journals, recipe keepsake books, and nature and garden sketchbooks. As an avid collector of antique paper ephemera, Koch utilizes the things she collects in inventive ways to add personal touches to her journals, mingling them with photos, sketches, and paintings of the many themes she explores. Along the way, she also shows how the act of making a journal can be a valuable way to explore an experience or subject in greater depth.
