

The Common Ground of Womanhood: Class, Gender, and Working Girls Clubs, 1884-1928 (Women in American History)

Where is the common ground of womanhood? In a unique and highly nuanced study of previously unexplored cross-class alliances, Priscilla Murolo charts the shifting points of consensus and conflict among working women and their genteel club sponsors, working women and their male counterparts, and working women of differing ethnic backgrounds. The working girls club movement lasted from the 1880s, when women poured into the industrial labor force, into the 1920s. Clubs initially were governed by upper-class women, and activities converged around standards of respectability and the defense and uplift of the character of women who worked for wages. Later, the workers themselves presided over the clubs, at which point the focus shifted to issues of labor reform, women's rights, and sisterhood across class lines. This valuable and lucid study of the club movements trajectory throws new light on broader trends in the history of women's alliances, social reform, gender conventions, and worker organizing.
